# Innovation

## Designer Series

Who said accessibility has to be dull? Bestbath Designer Series offers the customizable options you need to make showers a thing of beauty. Simply choose from a selection of our top selling showers, and we'll manufacture it with recessed panels.

You can fill these spaces with your choice of tile, such as colorful glass or ceramic, for a custom design to fit your project's style and décor. Tile installs quickly, is easy to maintain, and will not leak—eliminating the possibility of water damage.

One size doesn't always fit all. A bath or shower that works for one project might be wrong for another. That's where we make you look good. As your partner, we can manufacture any bathing solution to your project's exact specifications. From sizing to functionality, and safety needs to aesthetics, your dedicated Bestbath professional will work with you to ensure you get the right bath or shower—every time!

No bath or shower is complete without the right accessories. Whether used for safety, functionality or simply décor, Bestbath accessories perfectly accompany showers and tubs.
